## SKILLS

### Soft Skills

- Communication
- Teamwork
- Problem-solving
- Adaptability
- Time Management

### Hard Skills

- Python Programming
- Flutter Development
- Web Development
- *Internet of Things(IoT)*

## PERSONAL PROJECTS

### A User Friendly Ecommerce Website

*Crafting an intuitive e-commerce platform for seamless user experience and effortless navigation.*

### Efficient Waste Management System: Implementing LoRa WAN IoT for Smart Trash Bin Level Monitoring

- *Efficient Waste Management: Utilizing LoRaWAN IoT for Smart Trash Bins, enabling real-time fill level monitoring, optimizing collection schedules, and reducing costs.*
- *Selected as top idea for YIP 5.0 by Young Innovators Club*

## CERTIFICATIONS

- Master Course in full stack Development by Great Learning, Academy
- Odoo Technical Course 2023: From Zero to Hero From Udemy
- Python Fundamentals for beginners by Great learning,Academy

## ACHIEVEMENTS

- Selected as top idea for YIP 5.0 by Young Innovators Club, showcasing innovative
- Successfully secured a spot in the competitive Karthavya 2.0 Hackathon organized by Jyoti Engineering College, demonstrating proficiency in coding and teamwork.
- Selected for Make a Ton 6.0 at CUSAT, highlighting creativity and commitment to real-world problem-solving
- Selected for GDSC WOW Hackathon, showcasing technical expertise and proactive problem-solvinh
- Dedicated NSS volunteer, demonstrating commitment to community service and leadership.
